Testimonial:

Company: American Society of Civil Engineers
 Date: March 2015
 The updated design technology got members of the YMF to visit the ASCE San Bernardino & Riverside Counties Branch web site; many very high profile people. JGWDS really helped the branch and it's sub-committees to deal with the day to day tasks of announcing up coming events and news. A real beneficial addition was the use of Constack Contact to your online calendar which was instrumental to invite members to register to events and save them to their own personal calendars.

President's Message

It is **SUMMER** again and we are expecting some record high heat. Summer the time for everyone to spend time with family and friends. Rather than taking that long dream vacation, going to the beach or just having some backyard fun it should be a time to relax and maybe reflect on the personal accomplishments. During these summer months, JGWDS would like to remember that although some may consider summer as a time for fun our technology industry is not taking a break so here are some Tips on how to stay tech. savvy during the summer to increase your knowledge.

1. The saying that google is your friend is the best. Search the internet there is a wealth of information out there.
2. Be an expert at the technology that interests you. Find all the information you can about it.
3. Join an online community of other tech gurus and don't be afraid to ask questions.

Sincerely,
 Joseph A Gueste, MBA
 President, CEO
